

Welcome to Senex Energy's first instalment of our Quarterly update, bringing you our latest project progress, what's on in the community and how we're working sustainably to deliver essential energy for life.

Q2 2024

## Expansion project update

### Green light for Senex's \$1 billion investment to boost domestic gas supply

Senex announced on June 26 2024, it would move ahead with its more than A\$1 billion expansion of its Atlas and Roma North natural gas developments in Queensland's Surat Basin.

Construction works are now well underway on our expansion to deliver 60 petajoules of much needed natural gas supply each year to Australian manufacturers and households from the end of 2025.

The expansion will create 700 Queensland jobs during construction with an additional 200 ongoing for the life of the project.

The multi-decade investment will inject \$200 million into local Surat Basin businesses and communities and generate millions in royalties to fund hospitals, roads, schools and emergency services.

Stay tuned for more updates on our expansion progress.

## WHAT'S ON

### in the community

Senex was the major sponsor of the Wandoan Polocrosse Club Carnival and the Injune Race Club Cup event program and racebook sponsor during the quarter.

Both events saw hundreds gather for two great days of horses and sun.

Senex also brought Flipside Circus workshops to the Wandoan Gymnastics Club.

The sponsorship meant nearly 70 children from two-year-olds to high school students jumped, somersaulted and cartwheeled their way through workshops run by renowned Brisbane instructors.

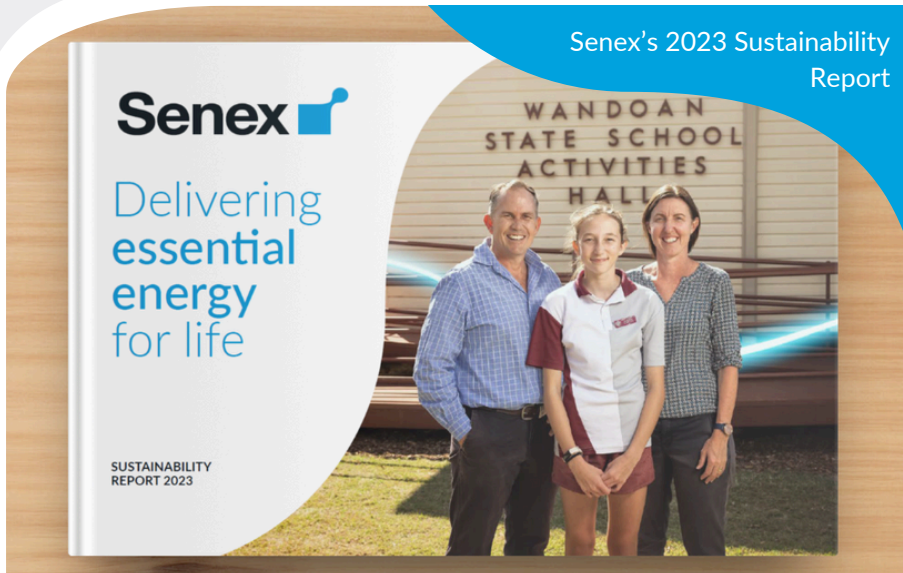

Senex wants our communities to be strong, vibrant and sustainable.

It is just one-way Senex supports the communities that support us.

## October Surat Basin community information sessions

More information will be shared soon on our [website](#) and social media

Senex's 2023 Sustainability Report

## Sustainability with Senex

### We have officially released our 2023 Sustainability Report

The report highlights company achievements, important case studies and the crucial role Senex plays delivering essential energy for life.

The report captures our performance for the 2023 calendar year - both in numbers and stories - highlighting our commitment to delivering essential energy for life while continuing our strong environmental, social and governance performance.

In 2023, we continued to invest in vibrant regional communities - spending **\$88.4 million** with local and regional businesses, investing almost **\$300,000** in local initiatives, and launching our **'Supporting our Communities'** plan to support access to health and education services and generate economic activity for generations to come.

These are just a few of the many highlights you can read throughout the report.

Our team plays an important role in delivering secure and reliable energy for Australians and in support of the energy transformation. The energy we supply is essential for the livelihoods of our customers and our economy, and it's essential to our future prosperity as a nation and Australia's decarbonisation efforts.

Orora's facility where Senex gas is used to manufacture glass bottles

## Did you know?

*Natural gas is an essential and non-substitutable high heat input in the manufacturing of glass bottles, bricks, cardboard and cement.*

Electricity, regardless of how it's produced, **cannot** generate the 1,300 Celsius temperatures demanded by these modern industrial processes.

Orora makes the wine and beer bottles in many of our bottle shops around Australia.

Read more about Senex's partnership with Orora.
