

Welcome to Senex Energy's second *Quarterly Update* of the year!

Q2 2025

This update shares with you our latest project progress, what's on in the community, our newly released 2024 Sustainability Report and a recent company milestone.

Expansion project

Senex's expansion will deliver much needed gas to Australia's east coast

Senex nearing completion of the expansion

Senex has proudly completed more than 90 per cent of its Surat Basin expansion project, with completion expected by the end of 2025.

At end of June, Senex has:

- completed more than **90% of the program**
- **drilled 85% of wells**
- **constructed 83% of gathering pipelines**
- **completed 91% of compression facilities**
 - the Atlas East Compression Facility is now in operation and processing gas
 - the Roma North Compression Facility is ahead of schedule and **on track to be delivered in late August**
- **60ha of new irrigation pivots and 300ML of new water storage** at Atlas
- **Installed a new water treatment plant** at Roma North

WHAT'S ON

in the community

Senex recently sponsored the Toowoomba Surat Basin Enterprise June Enterprise Evening in Roma at the Western Queensland Spirit Gin Distillery.

Senex CEO, Darren Stevenson joined an impressive panel alongside Carissa Crabtree, Senior Project Developer, [WestWind Energy - Australia](#), Neil Stephens, CEO, [Port of Brisbane Pty Ltd](#) and Chief Operating Officer, [Condabri Beef](#), Amanda Moohen.

The panel discussed **Efficient Supply Chains for our Region**, with a particular focus on how our region's largest industries - agriculture, energy, transport, and logistics - can benefit from stronger, more efficient connections from our region to the rest of Australia and the world.

Senex is proud of what we do, who we do it with, and where we do it - that's why we're here in The Maranoa for the long haul. The community that has given us so much.

SUSTAINABILITY
REPORT 2024

2024 Sustainability Report

Senex released its 2024 Sustainability Report reflecting on an amazing year of transformation for the business.

With a vision to be the natural gas company of choice, we have proudly partnered with our valued stakeholders to grow into a material operating business delivering essential energy for Australia's east coast.

Alongside a year of significant growth, we have maintained our commitment to protect our people and the environment, grow talent and contribute to our communities of operation.

Senex is committed to being part of the solution to address Australia's forecast energy shortfalls and supporting the energy transformation.

In 2024, we supplied **25 petajoules of natural gas** into the Australian east coast market.

We **grew our workforce by 34 per cent**, invested over **\$380,000 in local community projects, events and services** and sourced **96 per cent of procurement from Australian businesses**.

We believe natural gas is integral to Australian society and prosperity and are proud of the role Senex plays in delivering reliable and secure natural gas to Australian manufacturers and households both today and for decades to come.

The Atlas
to Reedy Creek Pipeline
being installed and connected

Sale of non-core asset: Atlas to Reedy Creek Pipeline

Last month Senex agreed to the sale of the Atlas to Reedy Creek Pipeline (ARCP) to Australian energy infrastructure partner, APA Group.

The sale of the ARCP enables Senex to focus on what we do best - producing natural gas for Australia's east coast.

Senex has a long and successful history of partnering with energy infrastructure operators to own and operate critical infrastructure, including our first compression facilities in our Atlas and Roma North fields which are owned and operated by Jemena.

The funds from the ARCP sale will be reinjected into the development of more natural gas assets and acreage in the Surat Basin.

This is good news for the Surat Basin as more development means continued direct and indirect jobs as well as the economic benefits that flow throughout our communities.

Find out more about Senex

Senex is a world-class supplier of reliable and secure natural gas - committed to delivering essential energy for life. The energy we proudly provide is essential to our modern lives and for the thriving communities we serve. If you would like more information, have any questions or comments, please get in touch.
